Subject: What a wedding!

Dear Jo Ann and John – That was an amazing event you guys produced. It made me want to start over and have a daughter just so she could have a Schwartz and Woodward wedding! I know the Toungates did not scrim on any expense but if they had not brought you guys in, it never would have been such a flawless and exciting event. From an "insider" it was a treat to see how beautifully the wedding flowed with so many guests, and you guys never "butted" in and ran around with walkie-talkies like that other Houston coordinator. It was as though everything was so well rehearsed but never forced by a pushy wedding director. I loved everything – it was fun, festive and so romantic for this special couple. But the very nicest part is that you took the time to seek me out so I could visit with all my favorite wedding professionals – even Tomas. Thank you for giving me in your own special way, the warm, fuzzy, heartfelt feeling I used to have during the show when I knew I was part of this great, grand team making beautiful weddings happen in Texas. Please keep me on your list of references forever. This wedding was truly a genuine Schwartz-Woodward production and I know you made the Toungates very proud. Love ya, Linda Miller
