Dear Joann and John,

We're finally coming down from our wedding weekend high and have the chance to write. Every comment we have heard, and there were many, was a superlative adjective! Rosa felt comfortable from the start. You listened carefully to her and Lisa and Phil and then were attentive to the details of seeing that everything progressed as they wanted it to without any flaw. And you did it with your warm and friendly personalities making it easy for all.

Some people will wonder if the cost of a wedding planner is worth it. I'll confess I was a skeptic. But I'm sold now. The myriad of things necessary to get done are achieved only with professional choreography. The family then can be as relaxed as is possible and lay back and really enjoy things. Enjoy it we did!

So again please accept our gratitude both for your performance and your manner. Without the two of you, the evening would not have been the enormous success it was.

Sincerely,

Richard S. Materson, MD
